

INTERVENTION LOGIC MAP: A tool to help you develop the intervention logic that underpins a project/service

INPUTS	ACTIVITIES	OUTPUT	OUTCOME	IMPACT
<p>Things that you will use in the project to implement it (People, time, money etc.)</p>	<p>Actions associated with delivering project goals (Events, salesforce activities etc.)</p>	<p>The direct results associated with a project, usually achieved in the short term (i.e. number of households engaged in the project)</p>	<p>Medium term consequences of the project. Outcomes usually relate to the project goal or aim (i.e. % households with credit card debt.</p>	<p>Long term consequence of a project (i.e. Reduced poverty rates)</p>
